**Cedar Highlands
August 2005**

**Part 1
Community Description**

1. Planning Committee Members List

<u>Name</u>	<u>Affiliation</u>	<u>Phone Number</u>	<u>Email</u>
Clive Newell	Resident, Member	435-662-2225/702-838-2657	cnewell@fleet-net.com
Dave Rowles	Preseident, HOA		
Ken French	Resident, Member	435-662-1933/435-229-0480	Barbken@pikx.com
Jacqueline Tully	Secretary, HOA	435-	jaqc Casey@hotmail.com
Keith Parke	5 county AOG	435-590-0510	kparke@fcaog.state.ut.us
Linford Nelson	Developer/Rancher	435-559-3014/435-586-4459	

2. Community Legal Structure

<u>Organization</u>	<u>Contact Person</u>	<u>Phone Number</u>	<u>Email</u>
Iron Co. Fire Warden	Ryan Riddle	435-586-2328/cell 590-3473	
Cedar/Iron County FD	Paul Irons	435-586-2964	
Sheriff Dept Search/Res	Charlie Morris	435-486-3192	mopar@scmtzrnzt.net
UT Div Forestry (grant)	John Schmidt	435-586-4408	johnschmidt@utah.gov
Fire Prevent Planner	Keith Parke	435-590-0510	kparke@fcaog.state.ut.us
5 County AOG			
Area Manager UT	Ron Larson		
Division Forestry/Fire and State lands			

3. Population

Approx. full-time 25 Approx. number of lots 165 Approx. number of commercial entities 0
Approx. part time 90 Approx. number of homes 50 Approx. visitor population during fire season 100-200

4. Estimated Values at Risk

The estimated values at risk of residential and commercial property in the year 2005 are approximately 20 million.

Cedar Highlands August 2005

5. Natural Resources at Risk

The Cedar Highlands community is surrounded by Bureau Land Management Land. Cedar Highlands is close in proximity to Kolob reservoir, Zion National Park, Cedar Breaks and Dixie National Forest. Watershed, forest products, livestock, wildlife and recreation tourism are adjacent to Cedar Highlands and the surrounding community. The Cedar City cattleman's/ shepherd's livestock trail goes directly through private, state, and BLM land which is adjacent to Cedar Highlands subdivision.

- 6. Commercial Entities - none**
- 7. Formal Association – Outside Volunteer Organizations none**
- 8. Media Support**
- 9. Schools - none**
- 10. Transportation - private vehicles**
- 11. Private Emergency Services and Equipment – resident nurse**
- 12. Restricting covenants, ordinances etc.**

The following restrictions need to be considered in any fuel management or fire protection projects: Add to building permits Decks need to be made of fireproof material. Right now we require all homes to be equipped with fire resistant roof. We will require all homes to be equipped with an outside frost-free spigot upstream of the home shut off valve. Cedar Highlands Home Owners Association enforces CC&R's.

13. Insurance Rating IS04

14. Physical Description

A. Access

- I. Directions to community: take exit 57 from I-15 travel east approx. .25 mile to old 91 south to Green Lakes Dr to the cattle guard entrance.**
- II. All-weather access: Green Lakes**
- III. Seasonal access: Kolob exit on highway 24 5 miles east of town, once on road approx. 4 miles to Cedar Highlands entrance.**

B. Roads

- I. All road signs are present**
- II. 50% are pavement 50% are dirt**
- III. Most will support 2 lanes of traffic (must)**
- IV. Some are cul de sac. Of these, most have adequate turnaround space available at the end of the road for emergency equipment.**

C. Driveways

- I. Most driveways width and height clearance, road grades and vegetation appearance are adequate for emergency equipment.**
- II. Few individual homeowners have posted their name and address.**

Cedar Highlands
August 2005

D. Structures

- I. Many are wood framed construction**
- II. Most have wood decks or porches**
- III. None have wood shake or shingle roofs**
- IV. Many are visible from the main subdivision roads**

E. Bridges, Gates, Culverts, others

- I. All bridges support emergency equipment**
- II. All gates provide easy access to emergency equipment**
- III. All culverts are easily crossed by emergency equipment**

F. Utilities

- I. Telephone service is below ground and provided by Beehive telephone # 435-234-0111**
- II. Electrical service is below ground and provided by Utah power # 888-221-7070**
- III. Gas service is below ground and provided by Questar telephone # 435-586-3741**
- IV. Are there homes/structures utilizing propane? Yes 3 out of 33 use propane. 100% are marked.**

Block 8 Lot 6

Block 8 Lot 4

Block 7 Lot 4

V. Are the homes/structures utilizing natural gas? Yes

VI. Primary Water Sources

Approximately 100% of homes use central water system

Approximately 0% of homes use individual wells

Approximately 0% of homes have additional private water source.

Water Provided by: Cedar Highland Homeowners Association Phone: 435-662-1941

Cedar Highlands
August 2005

Part II
Community Prescription

1. Goals/Purpose of Plan

- A. Community will decrease fuels to reduce wildfire intensity and impact in and around Cedar Highlands.
- B. Community will help educate community members to prepare and respond to wildfire.
- C. Community will include information on our website www.cedarhighlandshoa.org to further educate our residents.
- D. Improve capacity of the water system
- E. Improve roads for access
- F. Shelter Protection Kits –some hoses have been delivered, awaiting more and then will deliver.

2. Identification of Actions

AIM: A. Decrease Fuels

Action 1: The Fire Committee will implement fuel modification projects.

- I. Educational Campaign – Information meetings, brochures, individual assessment of property by fire expert, videotape check out, demonstration areas. Holiday Signs, pass out pamphlets at entrances, no fire works.
- II. Community Chipper Days
- III. Community Roadside cutting, clean up.
- IV. Fire Hydrants to be tested
- V. Fire Truck

Action II: The Fire Committee will work with local/state/federal fire experts to develop and implement internal fuel break plan.

Future/ Current Plans: Roads improve egress/ingress for firefighting equipment and evacuation.
Signage for Fire Level, evacuation routes, and home locations
Additional Water resources
Fuel reduction maintenance
Fire Station
Evacuation Plans
Phone Tree

3. Identification of Responsible Parties, Resources and Priorities

Cedar Highlands
August 2005

Aim	Action	Resources	Responsible Party	Priority
<p>1. Fuel Reduction</p>	<p>1. It is desirable that a 100 to 200 foot feathered look fuel break adjacent to and south of cattleman's trail be created and maintained. The fuel break will consist of removing dead trees and foliage and a general thinning of other vegetation. Right Hand Canyon Road bound this area on the west, Square Top Mountain on the south. Cedar Highlands Subdivision on the north and cattleman's coral on the west. Access to this area is available via private and BLM lands. Permission by private landowners may be required in order to access this area. Local rancher, developer, and landowner (Linford Nelson) as well as John Schmidt (Fire, Utah Division of Forestry Fire and State Lands) will assist in identifying existing roads into this property. Maps will be generated by John Schmidt to identify all access locations and present them to the local and state fire fighting agencies and include with the wildfire plan. It is desirable that Cedar Highlands Drive (the main egress/ingress road) into Cedar Highlands subdivision be evaluated for any locations that need thinning out or removal of dead vegetation immediately adjacent to the road. This road passes thru BLM and Cedar Highlands and is considered a public right of way.</p>	<ul style="list-style-type: none"> • www.Firewise.org • Forestry Fire and State Lands FMO • Bureau of Land Management • National Forest Service • Utah Living With Fire • Local Fire Department 	<ul style="list-style-type: none"> • Homeowners Assoc • BLM • UT Div of Forestry • Residents of Cedar Highland • Wildfire Council 	<p>High</p>

**Cedar Highlands
August 2005**

	<p>Most homeowners have been cooperating with the fuel reduction program. Areas immediately adjacent to homes have been thinned out or had vegetation removed. Chipping and burning is ongoing by residents, BLM, and county fire department. Educational materials have been provided to all homeowners.</p> <p>2.The Fire Committee will implement fuel modification projects.</p> <p>Education Campaign</p> <ul style="list-style-type: none"> • Brochures • Video tapes • Demo Areas • Meetings • Property assessment by fire professional <p>Fuel break volunteer time & equipment.</p> <p>Service Organization clean-up events.</p> <p>Community roadside cutting, spraying, reseeding projects.</p> <p>Community will coordinate to have fire hydrants tested.</p>			
--	--	--	--	--

<p>2. Road Improvements</p>	<p>Identify road ingress and egress problems First Cedar Highlands Drive is a public access road and a major evacuation</p>	<p>Homeowners Association BLM Utah Div of Forestry</p>	<p>Homeowners Association BLM Utah Dept of Forestry</p>	<p>Medium</p>
------------------------------------	---	--	---	----------------------

**Cedar Highlands
August 2005**

	<p>route.</p> <p>It is desirable that Cedar Highlands Drive be evaluated for its grade, width, and turning radius. Currently there are locations where the grade is too steep, the width is too narrow, and the turns too sharp for adequate passage of fire fighting vehicles, emergency vehicles, or safe evacuation. The county fire warden has already stated that large firefighting assets cannot make the grade or turns. Roadway realignment may also be required. Speeds are currently posted at 15 MPH. Faster speeds can be attained, but only at great risk of running off the road. This road is also unpaved and requires constant maintenance. Potholes and washboard surfaces are a constant nuisance. County engineering may be provided as well as other assistance in determining the correct course of action.</p> <p>Currently the Cedar Highlands Homeowners Association pays for all the road maintenance and snow removal. These monies are outside of any property taxes the homeowners pay. Iron County provides some mine tailings for road surfacing.</p> <p>Cedar Highlands is a subdivision and therefore requests that the BLM, County and/or State provide matching funds or services, especially since</p>			
--	---	--	--	--

**Cedar Highlands
August 2005**

	<p>they use this road for quick access and forestry maintenance as well. Other residents of the mountain that are outside of Cedar Highlands also using this road for access. Ranchers and other livestock men use this road to access areas where their herds are located.</p> <p>The Cedar Highlands Homeowners Association is also funding all road signage as well. This includes Street Signs and future evacuation route signs. A fire danger level sign would be desirable as well. Right Hand Canyon road is not maintained or accessible during the winter snow months. Right Hand Canyon road also adds an additional 30 to 45 minutes for emergency response time. This amount of time is unacceptable when fire or other life threatening emergencies requires much faster responses.</p>			
3. Phone Tree	<p>A phone tree has been completed and submitted with phone numbers of all residents and designated callers. See www.cedarhighlandshoa.org</p>	Homeowners Association	Wildfire Council Members	Medium

4. Evacuation Plan	<p>To develop a Community Evacuation Plan www.cedarhighlandshoa.org</p>	<p>Sheriff's Dept Police Dept Homeowners Association</p>	Wildfire Council Members	Medium
--------------------	--	--	--------------------------	--------

Cedar Highlands
August 2005

<p>5. Demonstration Lots</p>	<p>Ken French has completed his fuel reduction program entirely on his own using his own chipper. His lot is available for public viewing. He is available for consultation to any homeowner interested in fuel reduction. All of his time went towards matching funds for the fuel mitigation grant.</p> <p>Many lots in the subdivision have been completed.</p>	<p>BLM Homeowners Homeowners Association UT Div of Forestry County Fire Department</p>	<p>BLM Wildfire Council</p>	<p>Medium</p>
-------------------------------------	--	---	--	----------------------

<p>6. Shelter Protection Kits</p>	<p>Shelter protection kits have been delivered by Elaine Monaco. Per Ryan Riddle, he will order more, as soon as they re in Elaine Monaco will again deliver these to households that haven't gotten one. She did receive a list of residents who need these at our Annual Meeting.</p>	<p>County Fire Department Utah Div of Forestry</p>	<p>County Fire Dept Utah Div of Forestry Homeowners</p>	
--	--	---	--	--

<p>7. Fire Hydrants</p>	<p>All fire hydrants have been tested within the community and will provide adequate pressure for fire fighting.</p>	<p>County Fire Department Homeowners Assoc</p>	<p>County Fire Department</p>	<p>Medium</p>
--------------------------------	---	---	--------------------------------------	----------------------

Cedar Highlands
August 2005

8. Evaluate, Update and Maintain Plan	Review and update plan annually, may need to be evaluated more often in the height of wildfire season. June - Sept	County Fire Department BLM Utah Div of Forestry	Council Members	High

**PART IV:
TECHNICAL ASSESSMENTS**

Directions: This section is to be completed by fire officials. Include any technical data and information which will support or supplement the information provided by the Community in Parts I and II. Specific information is requested in order to provide consistency among fire plans within the state.

INSTRUCTIONS

I.

A. Community Description

Fire officials are to provide detailed assessments and information regarding this community. This section can be used as a worksheet -- copied, completed, and inserted into the community's fire plan. Fire officials may prefer to use this as a guidance document rather than a worksheet; if so, please make sure that the final community fire plan includes the following information. Documentation from assessments, ratings, surveys, etc. should be included in the Appendix, along with maps.

1. Physical Description

a. Area

Legal description:

USGS Map Quadrangle: (optional)

VOR RAD distance: (optional)

b. Topography and Vegetation

Slope

Average _____5_____ % Range _____0___ % to _____13_____ %

Aspect (predominate) _____ (Cardinal direction)

Describe the vegetation in the area: (if more room is needed, attach description)

Mountain brush Zone

c. Water Supply

Ponds / Creeks / other natural water sources: n/a

Type:	Location / GPS Coordinates	Status:	Helicopter	Pump	# Gallons
<u>Pond / Creek</u>		<u>Permanent /</u> <u>Intermittent</u>	<u>Access?</u>	<u>Required?</u>	<u>or CFS*</u>
•					
•					

* Ponds: measure by 1,000's of gallons; Creeks: measure in cfs during fire season

Cedar Highlands August 2005

Hydrants: 18

<u>Location</u>	Type: <u>Dry/Pressurize</u>	Data: <u>*TP&S</u>	GPM (max.) <u>Output</u>	<u>Comments</u>
-----------------	--------------------------------	---------------------------	--------------------------------	-----------------

-
-

** Thread Pressure and Size*

Water Tanks / other available water storage (underground cisterns, swimming pools, etc.):

<u>Location</u>	<u>Access</u>	<u># of gallons*</u>	<u>Responsible Entity</u>	<u>Phone #</u>
• Upper meadow	Dirt road	160,000	OHHA	662-1941
• High Mountain View Dr	Graded road	160,000	CHHA	662-1941

** measure 1000's of gallons*

e. Emergency Services / Equipment Capabilities

Describe the types of emergency services and equipment available from local, county, state, and federal resources.

911 Services:

Local:

County:

State:

Federal:

2. Hazard Evaluation

a. Area Fire History

<u>Month / Year of Fire</u>	<u>Ignition point</u>	<u>Ignition source</u>	<u>Acres burned</u>
---------------------------------	-----------------------	------------------------	---------------------

- None

•

b. Subdivision Rating

The subdivision is rated (low / moderate / high / severe / extreme) for wildfire hazard.

(Documentation for this rating should be included in the Appendix.)

**Cedar Highlands
August 2005**

c. Property / Structure Rating

All lots will be rated for wildfire hazard, as arranged by the Fire Council with fire officials and as permitted by the owners. The estimated time of completion for all ratings is _____.

Documentation of individual property ratings should be included in the Appendix.

d. Expected Fire Behavior

Describe expected fire behavior. Detailed documentation should be included in the Appendix.

Cedar Highlands August 2005

INSTRUCTIONS

II.

B. Community Prescription

Based on the information collected, provide recommendations for action under each of the following categories. Fuel modification project plans should include recommendations for ongoing maintenance. This section can be used as a worksheet -- copied, completed, and inserted into the community's fire plan. Fire officials may prefer to use this as a guidance document rather than a worksheet; if so, please make sure that the final community fire plan includes the following information. **Attach project worksheets for each project, and similar documentation for other goals.**

1. Fuel Modification Projects

<u>Project</u> (briefly identify)	<u>Timeframe</u>	<u>Person in Charge</u>
• BLM Fuel Reduction Project	10-01 to current	Paul Briggs
•		

2. Infrastructure Improvements (Utilities, Water Developments, Equipment Acquisition / Repair, etc.)

<u>Project</u> (briefly identify)	<u>Timeframe</u>	<u>Person in Charge</u>
Water Development Gravity Fed 320,000 • Shelter Protection Kits	Some delivered	Elaine Monaco/Ryan Riddle

3. Education

<u>Goal</u> (briefly identify)	<u>Timeframe</u>	<u>Person in Charge</u>
• Annual Association Meeting	August 24, 05	Ryan Riddle/Clive Newell
•		

4. Wildfire Response / Pre-Attack Plan

A Pre-Attack Plan should be in place, with a detailed description attached. The Pre-Attack Plan should address the following:

Emergency notification procedures	Factors in determining evacuation vs: shelter-in-place
Fire protection responsibilities among agencies (private, state, federal lands; response times)	Traffic Control
Command responsibilities	Briefing of personnel on safety and hazards
Pre-determined locations for... Command Post	Determining Operational Mode
	Determining resource needs (aircraft, mechanized, hand crews, water / chemical delivery systems)

Cedar Highlands August 2005

Staging Areas
Safety Zones
Helibase / Helispots

Determining assignments
(reconnaissance, medical, suppression, rehab)

	<u>Timeframe</u>	<u>Person in Charge</u>
<u>Goal</u> (briefly identify)		
•	Continuous	Ryan Riddle
•	Continuous	John Schmidt
5. Monitoring and Evaluation		
<u>Goal</u> (briefly identify)	<u>Timeframe</u>	<u>Person in Charge</u>
•Reduce threat of fire	Continuous	Clive Newell
•Reduce threat of fire	Continuous	John Schmidt

**Cedar Highlands
August 2005**

APPENDIX

INSTRUCTIONS

This section is to be filled as needed by both the Community Wildfire Committee and fire officials. Items can include, but are not limited to:

- Contact Lists
- Assessment Project Worksheets
- Maps
- Homeowner Checklists
- Examples / Sample documents
- Glossary

SAMPLE

Appendix A – Contact Lists

Utah Division of Forestry, Fire and State Lands
USDA Forest Service Districts
Emergency Call-Down List
Forest Products Directory

Appendix B - Maps
