This agreement applies without regard to whether a release is caused by the holder, its agent, or unrelated third parties.
17. The Authorized Officer may suspend or terminate in whole, or in part, any notice to proceed which has been issued when, in his/her judgment, unforeseen conditions arise which result in the approved terms and conditions being inadequate to protect the public health and safety or to protect the environment.

Upon failure of holder to control, cleanup, or dispose of such discharge on or affecting Federal lands, or to repair all damages to Federal lands resulting there from, the authorized officer may take such measures as he deems necessary to control and cleanup the discharge and restore the area, including, where appropriate, the aquatic environment and fish and wildlife habitats, at

Cultural

20. Any cultural or paleontological resource (historic or prehistoric site or object) or Native American human remains, funerary item, sacred object, or objects of cultural patrimony discovered by the permit holder, or any person working on their behalf, during the course of activities on Federal land, shall be immediately reported to the BLM Authorized Officer by telephone, with written confirmation. The permit holder shall suspend all operations 100 meters within the discovery and appropriately protect the discovery until an evaluation has been made by the BLM Authorized Officer.

The holder is responsible for the cost of evaluation and mitigation. Any decision on treatment and/or mitigation will be made by the BLM Authorized Officer after consulting with the permit holder. Operations may resume only upon written authorization to proceed from the BLM Authorized Officer.

Vegetation/Weeds

21. The holder will be responsible for controlling noxious weeds within the limits of the right-of-way. Noxious weeds are defined as those which are listed by the Utah Commissioner of Agriculture under the Noxious Weed Act, and those declared noxious by the County in which the ROW resides. The holder will employ weed control methods approved in writing by the BLM Authorized Officer. An approved Pesticide Use Proposal (PUP) must be obtained prior to application of herbicides. Upon coordination with the Authorized Officer, the holder may elect to operate under an approved PUP which the BLM holds, or may apply for its own PUP, either through the Authorized Officer or the BLM Utah State Office. A daily Pesticide Application Report (PAR) must be submitted to the Authorized Officer for each day weeds are sprayed on the ROW.

Wildlife

22. No ground disturbance or otherwise disruptive maintenance activities would be allowed from April 1 through July 31 without the completion of migratory bird nest surveys within priority habitats. Surveys would focus on bird species identified as priority bird species in Utah through Partner's in Flight and U.S. Fish and Wildlife Service Birds of

Conservation Concern. The need for field surveys will be determined by the BLM wildlife biologist. Based on surveys, the BLM wildlife biologist will determine appropriate buffers and timing limitations.

23. No off-road travel, surface use or otherwise disruptive activity would be allowed from December 1 through April 30 within identified crucial winter mule deer and/or elk habitat. This notice may be waived, accepted, or modified by the BLM authorized officer if either the resource values change, or the grantee/operator demonstrates that adverse impacts can be mitigated. The grantee/operator must request in writing an exception for construction, ground disturbance, or otherwise disruptive maintenance activities during this time frame. The request for an exception must include duration of activity (exact start and end dates when the action is needed) and specific activity (including number of people, equipment). The BLM authorized officer will review the request to determine current conditions and potential impacts to wintering deer/elk. If construction/activities are authorized, implementation would cease when snow depth is > 6" and/or temperatures are < 10° F.
24. Surveys will be required whenever surface use or otherwise disruptive activity is proposed in association with construction, ground disturbance, or otherwise disruptive maintenance activities within raptor nesting habitat. Field surveys shall be conducted according to protocol and determined to be unoccupied by the BLM authorized officer prior to surface disturbance activities. If nesting sites are identified as a result of the surveys, appropriate buffers and timing limitations would be implemented in accordance with BLM's Best Management Practices for Raptors.
25. No disruptive activity would be allowed within 0.5 mile of suitable, Utah prairie dog habitat, identified and mapped by Utah Division of Wildlife Resources since 1976 without prior coordination with the authorizing officer. This notice may be waived, accepted, or modified by the BLM authorized officer if either the resource values change, or the grantee/operator demonstrates that adverse impacts can be mitigated. The grantee must request in writing an exception for off road travel, surface use, or otherwise disruptive activity within 0.5 mile of suitable Utah prairie dog habitat. The request for an exception must include activity duration (exact start and end dates when the action is needed) and activity description (including number of people, equipment). Prior to authorizing surface disturbing activities, the grantee/operator will coordinate with the BLM authorized officer. Protocol level surveys shall be conducted by BLM approved biologists in areas of known occurrence of suitable Utah prairie dog habitat. Utah prairie dog surveys will be conducted during the active season, April 1 - August 31. The completed survey reports will be submitted to the BLM wildlife biologist for review. The BLM authorized officer will determine current conditions and potential impacts to Utah prairie dog habitat.
26. No surface use or otherwise disruptive activity would be allowed from May 1 through June 30 within identified crucial pronghorn fawning habitat unless the grantee/operator requests in writing an exception for construction, ground disturbance, or otherwise disruptive maintenance activities during this time frame. The request for an exception

must include duration of activity (exact start and end dates when the action is needed) and specific activity (including number of people, equipment). The BLM authorized officer will review the request to determine current conditions and potential impacts to pronghorn fawning.

Transfer of Federal Ownership/Relinquishment/Assignment

27. In accordance with federal regulations in 43 CFR 2807.21 any proposed transfer of any right or interest in the right-of-way grant shall be filed with the BLM Authorized Officer. An application for assignment shall be accompanied by a showing of qualifications of the Assignee. The assignment shall be supported by a stipulation that the Assignee agrees to comply with and to bound by the terms and conditions of the grant to be assigned. No assignment shall be recognized unless and until it is approved in writing by the Authorized Officer.
28. In the event that the public land underlying the right-of-way encompassed in this grant, or a portion thereof, is conveyed out of Federal ownership and administration of the ROW or the land underlying the ROW is not being reserved to the United States in the patent/deed and/or the ROW is not within a ROW corridor being reserved to the United States in the patent/deed, the United States waives any right it has to administer the right-of-way, or portion thereof, within the conveyed land under Federal laws, statutes, and regulations, including the regulations at 43 CFR Part 2800, including any rights to have the holder apply to BLM for amendments, modifications, or assignments and for BLM to approve or recognize such amendments, modifications, or assignments. At the time of conveyance, the patentee/grantee, and their successors and assigns, shall succeed to the interests of the United States in all matters relating to the right-of-way, or portion thereof, within the conveyed land and shall be subject to applicable State and local government laws, statutes, and ordinances. After conveyance, any disputes concerning compliance with the use and the terms and conditions of the ROW shall be considered a civil matter between the patentee/grantee and the ROW Holder.
29. Prior to termination of the right-of-way, the holder shall contact the authorized officer to arrange a joint inspection of the right-of-way. This inspection will be held to agree to an acceptable termination (and rehabilitation) plan. This plan shall include but is not limited to, removal of facilities, drainage structures, or surface material, recontouring, topsoiling, or seeding. The authorized officer must approve the plan in writing prior to the holder's commencement of any termination activities.
30. The right-of-way shall be relinquished to the United States if the authorized uses are no longer needed.
